

SERGIO SABATER RUIZ

AI Engineer | AlIntegra Limited Co-Founder | Telematics Engineering

Valencia, Spain

✉ sabaterruiz@gmail.com

☎ +34 722 273 036

SUMMARY

AI Engineer and startup co-founder with hands-on experience building and validating applied machine learning solutions across NLP, computer vision and security-focused use cases. Proven ability to take AI products from concept to real-world validation through international bootcamps, datathons and major startup ecosystems.

EXPERIENCE

Co-Founder & CEO– AlIntegra Limited

2023 – Present

- Co-founded an AI startup focused on accessibility and inclusive human-computer interaction
- Built AI-powered voice assistants for task automation and accessibility support
- Developed, trained and evaluated ML/DL models using Python, TensorFlow and PyTorch
- Represented the startup at international bootcamps, datathons and major tech events

Leisure and Free Time Monitor

Valencia, Spain | July 2020

- Led and coordinated multidisciplinary groups in dynamic environments
 - Planned and executed activities under responsibility and time constraints
 - Developed strong communication, leadership and conflict-resolution skills
-

PROJECTS

SentinelAX–AI Security Platform

- Developed DeepFake detection models for both audio and image data
- Built supervised ML classifiers for spam email and malicious URL detection
- Implemented an NLP-based chatbot for automated threat analysis
- Evaluated models using Accuracy, F1-score and ROC-AUC metrics

SKILLS

Programming & Data

Python, SQL, Java, C++, JavaScript, NumPy, pandas

Machine Learning & AI

TensorFlow, PyTorch, scikit-learn, Keras, Hugging Face

Domains & Tools

Natural Language Processing, Computer Vision, Time Series Analysis, Model Evaluation, Git, Docker (basic), Google Colab

AWARDS & HONORS

- **First Prize – Dedalus Datathon 2025**

Developed an AI solution using real healthcare data for challenges proposed by Dedalus

- **VDS 2025 – Startup Valencia**

Alntegra Limited selected to exhibit with an official stand supported by the University of Valencia

- **International Innovation Bootcamp – Sweden**

Selected by the University of Valencia to represent the institution in an international entrepreneurship and innovation program

- **Gennera 2025 (UV – MAPFRE)**

First prize for an AI-based solution addressing real business challenges

- **Best ETSE-UV Project – Xarxa UVemprén 2025**

Represented the University of Valencia against other universities from the Valencian Community, winning first prize with the brand Olivia Mareque.

- **First Prize – Gennera 5UCV (University of Alicante)**

Awarded as the best project of the School of Engineering (ETSE) at the University of Valencia, recognized for its innovation potential and business viability.

EDUCATION

B.S. in Telematics Engineering

University of Valencia

2021 – Present

University Extension Diploma in Artificial Intelligence

Samsung Innovation Campus – Universitat Politècnica de València

2025

CERTIFICATIONS

Artificial Intelligence Foundations · Machine Learning · Neural Networks & Deep Learning · NLP & Language Models · Probability & Statistics · NumPy Optimization · Python Certificate (Banco Santander) · Testing & Continuous Integration
